PRINCIPAL'S REPORT

Congratulations to all students and staff on a very successful Term 2!

Lots of sport and team events were held throughout Term 2, many are highlighted in this bulletin and on our Facebook page.

Congratulations to the following students on participating in the recent Legacy Speech Competition:

- Indigo Clarke - Winner - off to the State Finals
- Lily Beer
- Scout Van Der Heyden - Runner Up - off to the State Finals
- Ella Willaton

STAFFING AND WORKFORCE UPDATE

I would like to take this opportunity to welcome the following new staff member to our school community:

- Mr. James Croker (VCE English)

UNIFORM REMINDER

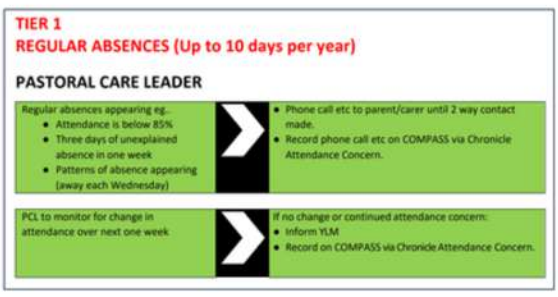

Please note: Our School Council are currently finalising the following additional/new uniform items:

- Modernised Sports/PE top
- School Beanie
- School Cap

ATTENDANCE

We continue to look for ways to improve our overall school attendance rates. Please see below the revised TIER 1 attendance procedures we are implementing. Please don't hesitate to contact your child's Pastoral Care Leader to discuss any arising attendance concerns that you may have regarding your child.

I would like to thank all our families that continue to support and encourage high attendance to school.

DO YOUR BEST

HELP OTHERS SUCCEED

RESPECT OUR SCHOOL

PRINCIPAL'S REPORT

Department-School Community reminders:

- Respectful behaviours and staff safety

SCHOOL MOBILE PHONE POLICY

PRINCIPLES OF PHONE USE

1. Students will keep their mobile devices switched off and locked in their locker between 8.30 am and 3.25 pm.
2. Parents and students will be notified on the permission letter if phones may be used on a school excursion or camp.
3. Students will not use mobile phones in banned spaces for example changing rooms, toilets, gyms and swimming pools.
4. Students are not permitted to take photos, film or stream any individual or group and their activities without their knowledge or permission and the consent of the College whilst at school or during school approved activities.
5. Students are not permitted to upload or share any photo or video files of other staff or students to social media sites whilst at school or during school activities (unless this is under the guidance of a class related activity).
6. Students must not use mobile phones to send harassing or threatening messages.
7. Students must not access inappropriate or illegal materials or bring the College or any member of its community into disrepute.
8. Students must not take their phone into any examination or common assessment task.
9. Mobile phones must not be used to bypass school procedures in relation to school-parent contact, such as the official notification of student illness or early departure from school. The College asks parents/guardians who need to contact their child to confine their mobile calls to before or after school. Any parent/guardian who needs emergency contact with their child can ring the school who will pass on the message.

STAGED RESPONSE

1. If a student is found to be in possession of a mobile phone and has not been granted an exemption, the phone will be confiscated until the end of the school day. The incident will be recorded as a SWPBS Behaviour of Concern- chronicle entry in compass by the confiscating teacher and the phone will be taken to the College office. Parents/ guardians will be notified via an automated Compass text message.
2. If a student commits a second offence, their phone will be confiscated, and the incident will be recorded again as a SWPBS Behaviour of Concern- chronicle entry in compass, and further contact will be made to the parent/carer by the Year Level Coordinator/Sub School Leader. The parent/carer is expected to work with the Year Level Coordinator/Sub School Leader and or Assistant Principal to ensure an appropriate discussion is held regarding supporting the College's policy and the student meeting the Mobile phone expectations.
3. If a third offence is committed, parent/guardian contact will be made by the Assistant Principal and a meeting will be scheduled with the parents/guardians and student and the Behavioural Management Procedures will be enforced in relation to defiance and unacceptable use of mobile phones.
4. If a student is caught photographing, filming or streaming people without their or the College's consent, or sending harassing or threatening messages, the student's phone will be confiscated immediately and an investigation will be undertaken by the College. The College will apply appropriate consequences and pass information and the phone over to the police if the nature of the matter is illegal.

NOTE: If, on any occasion a student refuses to hand over their mobile phone when requested by a teacher, the teacher will request assistance from a senior member of staff. If the student still refuses to comply, parents/guardians will be contacted and required to collect their student from the College and make an appointment to resolve the issue, prior to the student returning to school.

Wishing everyone a safe and enjoyable term break! And remember:

- **Do your best**
- **Help others succeed**
- **Respect our school**

WORLD WAR TWO CLASS

LINKING WORLD WAR TWO TO CURRENT GLOBAL ISSUES

EXTRACT OF LETTER
HEIDI LEONARD, YEAR 9

Dear Prime Minister, Anthony Albanese,

Australia should not use nuclear weapons. I have been learning about the events of Hiroshima and Nagasaki in my World War II class, and the impact of the atomic bombs against the Japanese were so devastating that no nuclear weapons should be used in any country, in any circumstance again... The result of the radiation is still affecting people today! Children are being born weak and being diagnosed with recurring cancer throughout their whole life...

EXTRACT OF LETTER
ROXIE AQUINO, YEAR 9

Dear Prime Minister, Anthony Albanese,

...Atomic bombs cause massive destruction and can kill thousands instantly which we already know from past incidents like the bombings in Hiroshima and Nagasaki... There is a total of 12,187 nuclear warheads in the world today. There are nine countries that have them – Russia, USA, China, France, UK, India, Pakistan, Israel and North Korea. If any of these weapons are used it will cause a massive amount of death and destruction...

EXTRACT OF LETTER
LEXIE MCKENZIE, YEAR 9

Dear Prime Minister Anthony Albanese,

I believe Australia should have the option to use nuclear weapons in conflict, if the nation's survival and safety of civilians is seriously threatened. Although nuclear weapons are extremely destructive, they should be used as a last resort... By the end of 1945 around 140,000 people had died in Hiroshima and roughly 70,000 in Nagasaki... Despite these bad consequences, many believe that it helped bring World War II to an end more quickly, as Japan surrendered shortly after the bombings. This shows that nuclear weapons are a powerful military deterrent...

EXTRACT OF LETTER
KEELAN GRUNDY, YEAR 10

Dear Prime Minister, Anthony Albanese,

...Australia is strong and we do not need nuclear weapons to prove that. We have signed an agreement to not obtain nuclear weapons and that is a step to the right path, but we must maintain on this path for Australia's sake...

EXTRACT OF LETTER
CONNOR PETERSON, YEAR 10

Dear Prime Minister Anthony Albanese,

...I believe that it is right for Australia to produce and protect ourselves through the use of nuclear weaponry, but they should not be used in earnest. What would we do if a country like Russia decided to attack us, we would have little to no means to defend ourselves and/or attack back... Russia possesses almost half of (the world's nuclear) weapons. Australia's allies ... have 5441 nuclear weapons between them. This still isn't enough to match Russia and if Australia had their own maybe we could be on an even playing field...

EXTRACT OF LETTER
HARRISON GRUNDY, YEAR 9

Dear Prime Minister Anthony Albanese,

I am writing to you about my concern around our possession of nuclear weapons, in the current situation of national security. I fear the role of nuclear weapons are becoming a need, due to our strategic place in the Indo-Pacific region... countries that have (nuclear weapons) and are not our allies could easily attack us at any moment, and we would not have any counterattack or defence. All we could do is rely on allies. Although there are treaties stopping us from producing nuclear weapons, we should make an exception.

As we approach the end of the Semester, students in Ms Bigg's World War Two class have been learning about how the dropping of the atomic bombs in Japan ended the war.

Students investigated the impacts of the atomic bombs on the people of Japan and the world community. They reflected on what we can learn from this dark chapter of world history and on the current conflicts around the world. Students then used their own rights as a citizen to write a letter to Australia's leaders about whether nuclear weapons should ever be used in conflict. Their letters are passionate, logical and support with evidence.

It is great to see that our future citizens and leaders care deeply about national security and the impacts of conflict across the world.

VLINC

VOCATIONAL LEARNING, INDUSTRY, NETWORKING & CAREERS

Connecting students to skills, industry, and future careers.

VLINC is the new partnership between Brauer College and the NPL, designed to support VCE Vocational Major students to become work-ready, confident and connected to local industry.

VCE VM enrolments continue to grow across regional Victoria and VLINC fills a crucial gap— supporting students who aren't yet ready to begin their 90 hours of Structured Workplace Learning. Through industry visits, repeated connections with employers, hands-on experiences and work-readiness training, VLINC will help students build the skills and clarity they need to step into a workplace successfully.

rt rafferty's

On Tuesday 26th May, our Year 11 VLINC students and 2 staff walked to Rafferty's for a workplace visit. Our Year 11 VLINC students in conjunction with the Neil Porter Legacy had the pleasure of meeting Rachel who provided us with a tour of the whole venue. She spoke to the students about the Hospitality industry and gave a lot of really interesting stories about how the staff at Rafferty's began their careers. Our students were very impressed by what Raffertys has to offer and were blown away by the size of their menu! They learnt about what is needed to give kids their age a really good start in the industry e.g. doing an RSA and eventually an RSG. Rachel spoke about the kitchen side to Hospitality and being a chef herself, offered a lot of great advice.

Many thanks to Jason Bidmade from NPL for organising the excursion. Thanks to Banjo for speaking on everyone's behalf. We left Rafferty's with bellies full and had an awesome day.

RICHARDSON MARINE WARRNAMBOOL

The VLINC program visited Richardson Marine on Tuesday 2nd June, to learn about what they do there and what a typical day of work looks like in this style of business.

We got to see the ins and outs of the boat work shop and the tackle shack shop. With the opportunity to learn about possible career paths for working in the marine industry. A very interesting and informative afternoon for everyone. Thanks to the Neil Porter Legacy community for facilitating industry connections and supporting our VLINC program.

NEIL PORTER LEGACY COMMUNITY FOR CAREERS

YEAR 7 WORKSHOP: THE BRAIN AND NEUROPLASTICITY

Over the month of May, Year 7 classes completed a workshop titled 'The Brain and Neuroplasticity', delivered by our Big Life team. Students engaged in a series of fun, hand's on activities designed to build their understanding of how the brain works and how it can grow and change through learning and effort.

As part of the session, students had the opportunity to safely handle or observe a real lambs brain. This enabled students to identify key parts of the brain.

Here are some comments of the workshop from our Year 7 students:

- "Really cool I learnt some new things!" Rob
- "It was really cool. I like how we got to hold the brain!" Ella
- "Quite interesting!" Axel
- " The brain feels like jelly and the class is fun!" Kerry

TRY A CAREER DAY

Our Year 9 students enjoyed the "Try A Career Day" at South West TAFE Deakin Campus. It was a fantastic opportunity for students to explore the facilities and learn about pathways into areas such as agriculture, horticulture, electrical, early childhood, beauty & hair, automotive, hospitality, visual arts and building, just to name a few. Students participated in hands on activities, asked questions and gained valuable insight into future career opportunities.

WOODWORK

🛠️🎉 HOW GOOD ARE THESE PROJECTS?! 🎉🛠️

Students in 7F have been busy in the Brauer College Technology Department, creating their very own wooden toolboxes and lolly dispensers! 🍭🔨 The workshop has been buzzing with creativity, problem-solving, and plenty of hard work as students measured, cut, assembled, and finished their projects. The results have been fantastic, and the quality of work on display is something they should all be proud of.

A massive well done to all of 7F for their effort, enthusiasm, and willingness to have a go.
The projects look amazing! 🙌🔥

SPORTS INDUSTRY PROGRAM

LEVEL II FIRST AID AND CPR
TUESDAY 2ND JUNE

Well done to the Cert III Sport, Aquatics and Recreation students who successfully completed their First Aid and CPR course as part of this certificate program.

VICTORIAN INSTITUTE OF SPORT
YEAR 10 EXCURSION

On Monday 15 June, the Year 10 VET Sport and Recreation (SIP) class visited Deakin University's Waurn Ponds Campus to work with staff from the Exercise and Sport Science Faculty. As part of their studies this year, students designed and developed sport-specific fitness tests for a range of sports, including AFL, cricket, netball, and basketball. During the visit, Deakin lecturer Andrew Cronwright assisted students in conducting and analysing their fitness testing protocols in a university laboratory setting.
Students also had the opportunity to explore post-school pathways in exercise and sport science and gain hands-on experience with specialised testing equipment used by university students and researchers.

This excursion continues a longstanding partnership between Deakin University and our SIP program, which has existed since the program's inception. We are extremely grateful for the ongoing support provided by Deakin Senior Lecturer Simon Feros, who has worked closely with our program over many years, as well as Andrew Cronwright, who has generously supported our students on numerous occasions.

The partnership provides a valuable opportunity for students to experience higher education firsthand, develop their understanding of sport science, and explore the diverse pathways available within the industry.

DOCTORS IN SCHOOLS

@ BRAUER COLLEGE

WHAT IS DOCTORS IN SECONDARY SCHOOLS?

Doctors in Secondary Schools (DiSS) is an initiative the Victorian Government has introduced to selected secondary schools to assist students with:

- Making healthcare more accessible to students
- Provide assistance to young people to identify and address any health concerns
- Reduce pressure on working parents

DISS PROVIDERS & TEAM

LOTUS FAMILY CLINIC

Dr Lydia Agarwal
General Practitioner

Natarsha Achison
Practice Nurse

The clinic/doctors are available weekly on **Wednesday's (9:00 am-3:00 pm)**
The GPs provide medical advice and health care to those students & parents/carers most in need.

WHAT CAN STUDENTS SEE THE DOCTOR FOR?

- General health check-ups
- Physical pain or issues
- Health lifestyle

(Sleep, diet, nutrition, exercise)

- Mental health
- Sexual health and contraception
- Sexuality and gender identity
- Body image
- Scripts

HOW TO MAKE AN APPOINTMENT:

- Students can see wellbeing and staff can support student is making appointment
- Call the clinic directly at **03 5309 3159** (Ensure you state it is for DISS at Brauer)
- Visit the school clinic at recess or lunch

PRIVACY AND CONFIDENTIALITY OF SERVICE

The Doctors in Secondary Schools service respects the privacy and confidentiality of students. The Doctors in Secondary School adheres to the Victorian Government's law for consent for medical treatment by a General Practitioner (GP) as it relates to minors. Young People who are deemed a mature minor by the GP are able to consent to their own medical treatment. If the GP deems a student looking for treatment is not a mature minor their Parents/Carers will be informed and consent will be sought prior to treatment.

WELLBEING

YOUTH CONSERVATION LEADERS PROGRAM

MAISIE ROWE, YEAR 9

Congratulations to Maisy Rowe, who was selected to participate in the Youth Conservation Leaders Program. Earlier this year, Maisy successfully applied for the program and was awarded a scholarship to take part.

Through the program, participants learn from mentors at Zoos Victoria and other industry leaders, while also being supported to undertake a wildlife conservation project.
Maisy, alongside students from schools across Victoria, is working on a project focused on the endangered Leadbeater's Possum. As part of the project, the possums will be released at Haining Farm, where members of the public will be able to view them.

Maisy has already enjoyed an exciting week in the program, spending time between Melbourne Zoo and Healesville Sanctuary. She will return for another week soon to continue her work in the program and attend a graduation ceremony. Following the completion of the program, Maisy plans to bring her new skills and knowledge back to the local community by contributing to a conservation project in the region.

Congratulations, Maisy, on this outstanding achievement!

Huge thank you to everyone for supporting our Term 2 Fundraiser - we hope you all enjoyed sampling the goodies!

TERM 3 MEETING INVITATION

Tuesday 28th July, 2026

7pm via Webex - details available on Compass prior to meeting. Everyone is most welcome to attend!

ICan Network - Online Mentoring Upcoming Programs

I CAN® is Australia's largest provider of autistic-led group mentoring programs, training and consultancy. Our school and online mentoring programs empower 7 to 25-year-old young people with an 'I CAN' attitude.

At I CAN we know that the recent changes to the NDIS have felt unsettling for many families. Our focus continues to be making our programs as accessible as possible for families while still providing safe, supportive and meaningful spaces for our mentees.

To support families during this time we're introducing new Minecraft and Dungeons & Dragons 3-day programs for families who may find a shorter program more manageable.

Our first block of 3-day program is from June 17-24th (2hours per session), at the end of term: a time when, if we're honest, things can start to feel particularly hard for many young people and families. Having something engaging and positive to look forward to, while remaining in the comfort and safety of home, can make a real difference.

Then, while many families are resting and resetting we'll also be offering Minecraft and Dungeons & Dragons 3 - day programs from July 6-10th (2 hours per session).

29th January 2026

Dear parents, guardians and carers

Re: Nationally Consistent Collection of Data on School Students with Disability (NCCD)

Every year, all schools in Australia participate in the Nationally Consistent Collection of Data on School Students with Disability (NCCD). The NCCD process requires schools to identify information already available in the school about supports provided to students with disability. These relate to legislative requirements under the *Disability Discrimination Act 1992* and the Disability Standards for Education 2005, in line with the *NCCD guidelines* (2019).

Information provided about students to the Australian Government for the NCCD includes:

- year of schooling
- category of disability: physical, cognitive, sensory or social/emotional
- level of adjustment provided: support provided within quality differentiated teaching practice, supplementary, substantial or extensive.

This information assists schools to:

- formally recognise the supports and adjustments provided to students with disability in schools
- consider how they can strengthen the support of students with disability in schools
- develop shared practices so that they can review their learning programs in order to improve educational outcomes for students with disability.

The NCCD provides state and federal governments with the information they need to plan more broadly for the support of students with disability.

The NCCD will have no direct impact on your child and your child will not be involved in any testing process. The school will provide data to the Australian Government in such a way that no individual student will be able to be identiPied – the privacy and conPidentiality of all students is ensured. All information is protected by privacy laws that regulate the collection, storage and disclosure of personal information.

Further information about the NCCD can be found on the NCCD Portal (https://www.nccd.edu.au).

If you have any questions about the NCCD, please contact Mr Rhys Holder at the college on 5560 3888.

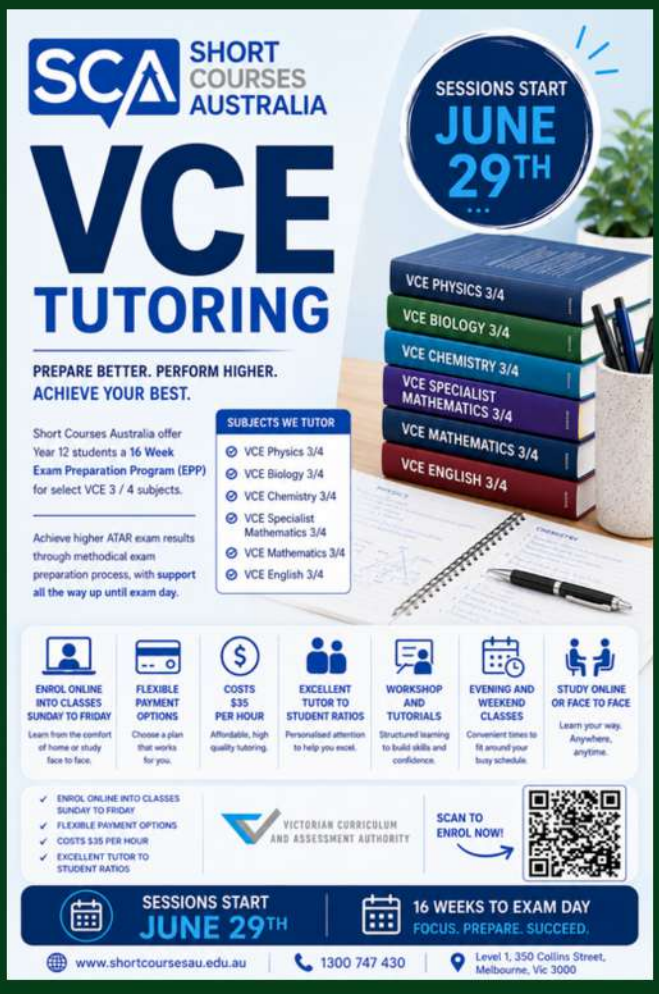

Kind regards

Sean Fitzpatrick
Principal
