ENTERPRISE
2025

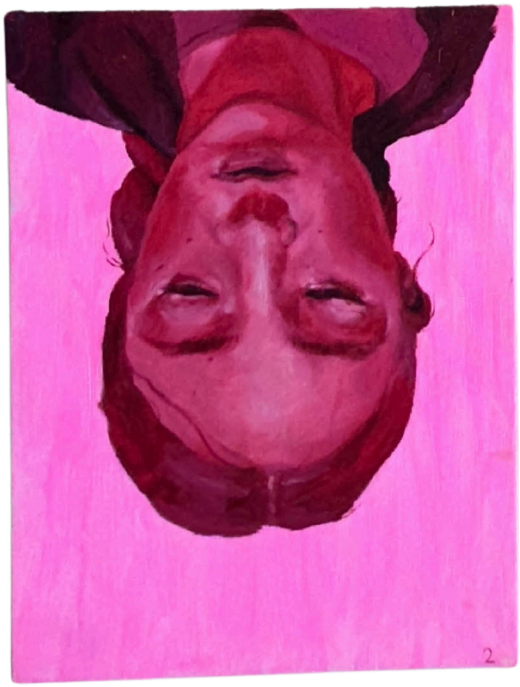

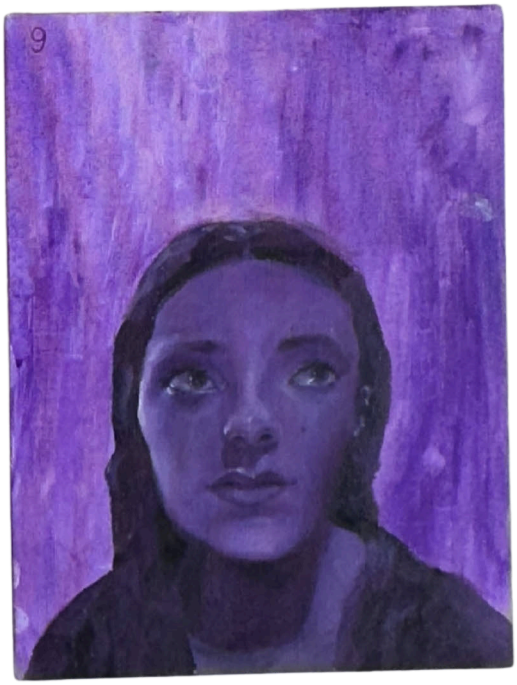

We, the staff and students of Brauer College, acknowledge that we are learning on the traditional lands of the Peek Whurrong people of the Gunditjmara/Maar Nation.

We pay our deepest respects to their Elders; past, present and emerging and to their continuing connection to the lands and waterways.

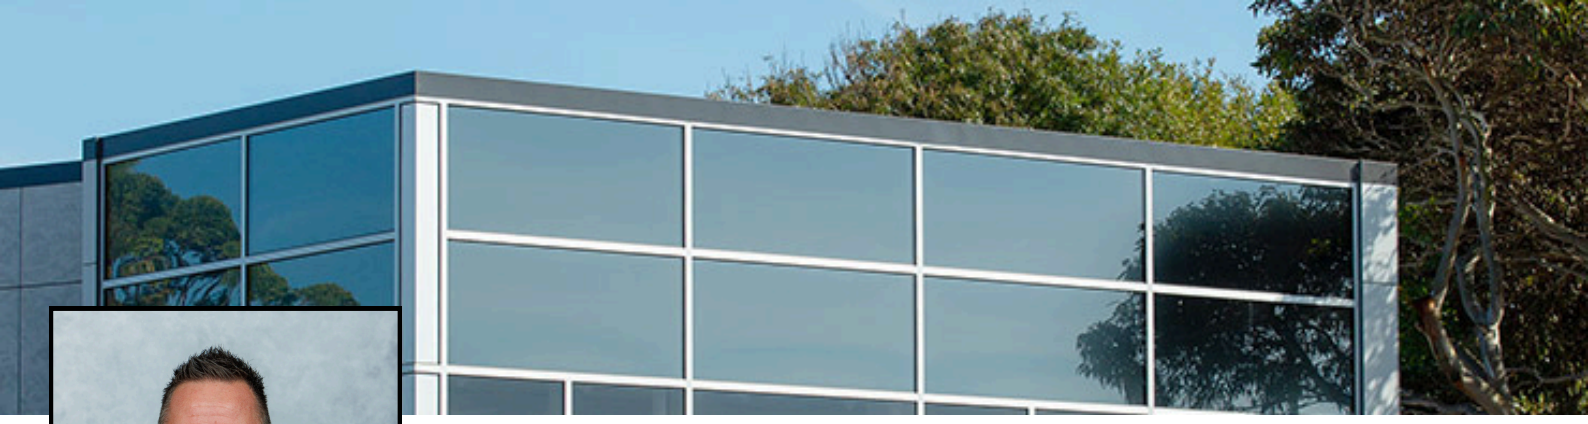

We also extend that respect to all other Aboriginal and Torres Strait Islander people who gather here.

We stand side by side with our First Nations people and commit to building a brighter future together.

PRINCIPAL'S REPORT

I am in the very privileged position being Principal of Brauer College. I get to have a 'balcony view' of how hard our staff, students and families work to enable success. Elements that contribute to our success include academic instruction and support in the classroom, individual and small group intervention, extra-curricular tuition, and opportunities to participate in a wide range of sports, technology, careers and arts programs. Social and emotional learning also plays a vital role in the growth of our students and ultimate success. Brauer College really does offer a world of opportunities.

As I reflect on 2025, I look forward to 2026. I want to see Brauer College 'get better at being better'. We have all of the ingredients needed to ensure this is our future reality.

As you scroll through the 2025 Brauer College Enterprise, think about the relationships, friendships, support, effort and achievements gained in 2025. On behalf of all of the school community, congratulations and we are very proud of you all!

JESSICA COOPER | REBECCA MOODY

The John King Award was named after Mr John King who was the Principal of our school for over thirty years, through World Wars 1 and 2, and during The Great Depression. These awards were named after him to recognise his significant and enduring contributions to our community.

These nine students were recognised as they have displayed strong citizenship in four areas:

- Contributions to the wider community
- Respect of their peers and Brauer College staff
- Strong academic endeavour and achievement
- Extensive involvement in the Brauer College co-curricular programs

RESPECT
RESPONSIBILITY
PARTICIPATION

STUDENT REPRESENTATIVE COUNCIL

This year, our Student Representative Council (SRC) has been hard at work creating a fun, inclusive, and engaging school community through a variety of events and initiatives. A small but incredibly dedicated group of students took the lead in generating ideas, designing promotional posters, organising resources, and communicating with the wider student body to make each event a success. Their commitment and teamwork have truly demonstrated Brauer's values of Respect, Responsibility and Participation.

A GREAT START TO 2025

The year kicked off with a very successful BBQ and slushie/lolly stall at the whole school Athletics that brought plenty of energy and excitement to the start of the school year. The SRC also ran a Best Dressed Competition, celebrating school spirit and creativity across all year levels.

Later in the term, the SRC encouraged everyone to look their best for School Photo Day, rewarding students who showed pride in their uniform with spot prizes and a Best Dressed Year Level award. Congratulations again to Year 10, who took out the top spot and enjoyed a Zooper Dooper treat at the end of term!

SUPPORTING SCHOOL LIFE

Beyond events, the SRC supported everyday school life in meaningful ways. Members worked alongside Sarah in the Administration Office to keep the vending machine well-stocked with popular items, ensuring it remained a hit with students all year round. They also promoted healthy habits by encouraging everyone to stay hydrated, putting up reminder posters, and sourcing free reusable water bottles—available through the Wellbeing team for anyone who needed one. The SRC also contributed to the wider school community by donating prizes to Year 11 Vocational Major projects and the Middle School Captains lolly stall, supporting the efforts of other student-led initiatives.

R U OK? DAY

In September, the SRC partnered with Big Life to help run a range of activities for R U OK? Day. These included a "Guess the Chupa Chups in the jar" competition, bracelet making with Ms McNaughton, and lunchtime games coordinated by the SIP crew. The week was a great reminder of the importance of checking in with friends and fostering a supportive school environment.

SPOOKY SEASON FUN

To finish the year with a bang, the SRC organised a Halloween-themed "Trick or Treat Amazing Race", where teams raced around the school to find the teachers who either had a trick or a treat. The aim was to complete a small puzzle with the first three completed winning the major prizes. Congratulations to the three lucky winning teams, who each took home $10 canteen vouchers for their efforts!

STUDENT LEADERSHIP BEYOND THE SCHOOL

Two of our SRC members, Alice Daffy and Charlotte Bishop represented our school at the Regional Student Leaders Congress, where they were inspired to lead a school wide project which aimed to promote wellbeing in the school community. They decided to organise an art competition inviting Brauer students to design and paint a mural for our newly renovated undercover area. After reviewing many creative submissions, three designs were selected, and the chosen artists will now collaborate to finalise and paint the mural. A grand reveal will happen once the mural is completed.

This year's achievements reflect the creativity, teamwork, and leadership of our SRC members, who have worked tirelessly to make our school a better, brighter, and more connected place. A massive thank you to the teachers and other students (like the Year 11 SIP crew) who supported the success of these events throughout the year.

Finally, the biggest thank you to our excellent SRC students for your enthusiasm and dedication—you've truly made a difference in 2025!

CONNOR PETERSON

RUBY PRENTICE

The mission of the School for Student Leadership is to provide an immersive state-wide residential program for Year 9 Government School students which enables them to grow into better citizens and leaders through increased self-awareness, social engagement, community connection and environmental stewardship.

The Alpine School and its staff contribute in a considerable way to the social capital and fabric of the local community and play a valuable role in the economy and social life of Dinner Plain. The Alpine School Campus prides itself in generating and establishing unique communities.

Our Year 9's who attended the Alpine School For Student Leadership appeared on the TV! Students had a few seconds of fame, seen in the background in the Sunrise report. By all accounts they were excited to be asked to be in the background, they made a snowman at the bottom of the toboggan slope!

COOPER HIRST

Cooper Hirst was selected to attend the Gnurad-Gundidj Campus. Located at the base of Mt Noorat, in Glenormiston North, the campus is situated amongst the volcanic plains, calderas, rivers and lakes of the Western District.

The nearby marine environments of the Shipwreck Coast are rugged, scenic and historically significant. This environmentallows for a unique outdoor experience; distinguishable from the other campuses.

BOGONG

FUTURE MAKERS CAMP

YEAR 9
BOGONG VILLAGE
OCTOBER 6 - 17, 2025

Our time at the 12 Day Bogong Camp was an amazing opportunity and experience, one which we'll never forgot. The exciting and often daunting activities helped us to work as a team and build resilience throughout the camp, which ultimately helped us conquer Mount Feathertop on the 4 night hike.

Between days of rock-climbing, abseiling and high ropes we (Group 1) went on a gruelling 5 day hike up Mount Feathertop where we camped for two nights on the snowy mountaintop. The hike was made near impossible by the 15 kilo bags we had to carry up it - but after 7 hours of hiking we had made it to Federation Hut. While on the mountain we had many snowball fights and enjoyed being out in nature. By the time we made it back to Bogong everyone had a sense of immense pride and achievement.

The next couple days flew by with smoking ceremonies, dance lessons, canoeing, art and more amazing food from the cook, Phil. We absolutely loved our time at Bogong and the memories we made there.

Maya Knell, Addy Mills and Eleanor Bussell

Twenty-four Brauer students spent 12 unforgettable days at Bogong Village, taking part in the Future Makers camp. Everyone had an amazing time and learned so much throughout the experience.

A big part of the camp was a five-day hike and camp out in the wilderness, which gave us the chance to connect with nature and challenge ourselves. We were lucky to have a cultural guide who shared Dreamtime stories and taught us about the environment and Indigenous culture.

The activities were both exciting and fun. Some highlights included a high ropes course, canoeing, bike riding, and bridge building. One especially memorable activity was the "possum swing," where you had to trust your group to pull you up and hold on tight, or else you'd drop to the ground!

We also enjoyed a "High Plains Day" up in the snow, which was a big highlight for everyone. Throughout the camp, we learned valuable lessons about caring for the environment and respecting Indigenous traditions.

My favourite part was the High Ropes Course. Even though I was really scared at first, I learned to trust my team as they helped keep me safe. In the end, it was so much fun!

Overall, the Bogong Future Makers camp was the best camp I've ever been on, and I wish I could go back again.

Passing
OF THE FLAG

With the Passing Of The Flag Ceremony we not only wished our graduating class of 2025 the very best for their futures, but we also recognised the contribution these students have made to the Brauer College story throughout their six years. The traditional "Passing of the Flag" ceremony continues to be a deeply moving and significant occasion on the College calendar. It was particularly wonderful to see so many family and friends who attended the ceremony.

FROM LITTLE THINGS
BIG THINGS
GROW

clontarf
foundation

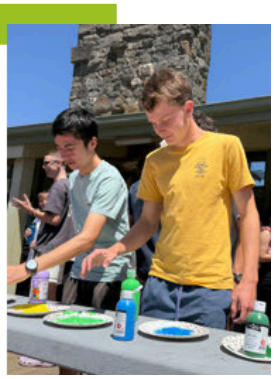

By using a diverse blend of activities throughout the year, we engaged members across all cohorts, which enabled the boys to build stronger relationships and develop a deeper level of connection with one another. A main focus throughout the year was bringing our attention to healthy habits that helped us live life more fully, both individually and collectively. We combined extra disciplines in to our day-to-day routines, enabling us to become better versions of ourselves and positively impacting the people and the world around us. With many meaningful encounters during 2025 and great synergy along the way as an academy, we were able to create numerous new friendships and connections within the community, allowing us to develop in some of Clontarf's key areas in life.

With the Clontarf camps laying the foundation for the Clontarf programme, the boys embraced the anticipation of each camp throughout the year using them as a platform to help guide one another to the finish line. Through our Clontarf specific activities on our camps, we were able to gain a better understanding of one another. By enjoying every moment so far in 2025 and sharing the pleasure of the vast array of activities we were able to heighten our experience across all Clontarf activities resulting in an impressive engagement by the boys in all things Clontarf.

A big thank you to all Clontarf members and their families, the KESO's, both Warrnambool College and Brauer College, as well as our partners for all their support and for helping to make 2025 a very meaningful year, full of great memories.

abiglife
make your mark

What a year it's been! From navigating Year 12 to starting out in Year 7, 2025 has been all about connection, confidence and growth.

We kicked off the year with Year 12 Navigator, where our students set goals, built connections and got ready to take on their final year. At the same time, our Year 10 Peer Support Leaders helped Year 7's settle in with games, chats and plenty of laughs, helping make the start of high school a lot less scary!

Throughout the year, Year 7 Learning for Living classes explored topics such as mindset, character strengths and building positive relationships. They also learned about Neuroplasticity and how our brains grow stronger every time we practice or face a challenge. Year 10's took a stand during Health Day, participating in fun activities and learning about being an upstander and how small actions can make a big impact.

As the year wraps up, we are really excited for what's up next as we welcome our 2026 Year 10 Peer Support Leaders. Their training will kick off in early December and we can't wait to see them step up, lead with kindness and make a difference for the next group of Year 7's.

YEAR 8 HISTORY
MEDIEVAL MAYHEM

BLACK PLAGUE

Mrs Creely's Year 8 Medieval Mayhem classes have been learning about the Black Death, also known as the Black Plague. Life during the Middle Ages, which occurred between 500-1500 Common Era, was already tough so when the Black Plague spread throughout Europe, life became much tougher.

Students have learned about the types of the plague, crazy cures used to treat the plague and the eventual decline and death of 1 in 3 people through Europe and England.

To demonstrate their knowledge and understanding such as comprehension, analysis and synthesis, students have used skills such as defining, visualising, explaining, demonstrating, reviewing, creating and writing about the plague. Students are creating a portfolio to demonstrate the tasks they have completed. Examples of some of the student creations such as Barber Surgeon masks used by Barber Surgeons to limit their exposure to the disease while also limiting the impact of the smells the disease put out, are just some of the great activities completed by our students.
